

HELP SAVE HERITAGE

Oban House is a heritage building in St John's Grove Conservation Area, looking out onto Beeston parish church – the heart of our town.

It's also beautiful and at risk.

While we **support** Manor Surgery's quest for new, larger premises at 8 Chilwell Road we **DO NOT SUPPORT** tearing down Oban House, or the design of the new building initially put forward.

Oban House is in a Conservation Area. It could convert to make a unique frontage for the Surgery.

By bringing a much-admired heritage building back into use through **renovating it and extending it at the rear**, its owners would not only have a highly valuable, impressive landmark building to lease to Manor Surgery – they would also have the full support of Beeston Civic Society and the local community behind them.

We would all benefit from the positive contribution this new centre and attractive development would make to the public realm and the 'sense of place' in Beeston.

Please join our campaign if you want to try to save a heritage building in Beeston. See below for our Top Four ways to help!

HELP US
SAVE A
BUILDING

1. Scan the QR code to **OBJECT** or go to: tinyurl.com/saveobanhause
