

HELP SAVE HERITAGE

Oban House is a heritage building in St John's Grove Conservation Area, looking out onto Beeston parish church – the heart of our town.

It's also beautiful and at risk.

Planning permission* is being sought to tear down Oban House and replace it with a large, modern building for Manor Surgery to rent.

Beeston Civic Society thinks there is a better option!

While we **support** Manor Surgery's quest for new, larger premises at 8 Chilwell Road, we **DO NOT SUPPORT** tearing down Oban House, or the design of the new building initially put forward.

Oban House could convert to make a unique frontage for the Surgery.

By bringing a much-admired heritage building back into use through renovating it and extending it at the rear, its owners would not only have a highly valuable, impressive landmark building to lease to Manor Surgery – they would also have the full support of Beeston Civic Society and the local community behind them.

We would all benefit from the positive contribution this new centre and attractive development would make to the public realm and the 'sense of place' in Beeston.

Please support our campaign if you want to try to save this heritage building in Beeston. Below are our Top Four ways to help!

HELP US SAVE A BUILDING!

1. Scan the QR code to **OBJECT** or go to: tinyurl.com/saveobanhouse
